

Let's make a Stained Glass Vase!

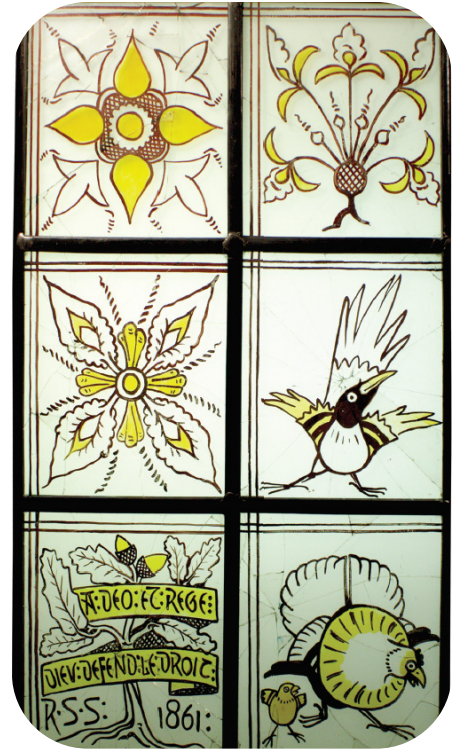

We need:

- We need:
- A glass jar (you can use an old food jar, just make sure it is nice and clean)
- A pencil
- A plain piece of paper that will fit inside the jar
- Sharpie pens

Let's begin:

1. Check that the piece of paper fits inside the jar, then take it out of the jar and lay it flat on a table.
2. Draw your design on the paper in pencil. We love the oak tree, the magpie and the chickens in Philip Webb's stained-glass designs shown here, so we chose to draw a woodpecker and an Autumnal leaf. What inspires you? Maybe you have a favourite bird or tree.

3. When it is finished, place your design inside the jar so that you can see it clearly. Now you can draw on the jar using your Sharpie pens, following your design. You can use as many different colours as you would like.

4. Remove the paper design when you have finished. Now your vase is ready. What are you going to put in it?
