

Festive Paper Folding Decorations

You will need:

- Heavyweight paper or wallpaper
- Ruler
- Pencil
- Scissors or paper knife
- Glue gun or liquid strong glue
- Small piece of card
- Needle and wool or ribbon

1. Cut two strips of paper measuring 5cm x 30cm. Measure in 1.5cm increments along the long length and score lines.

2. Concertina up the two strips of paper.

3. Glue the two strips together along the short end, then glue the short ends together to form a circle.

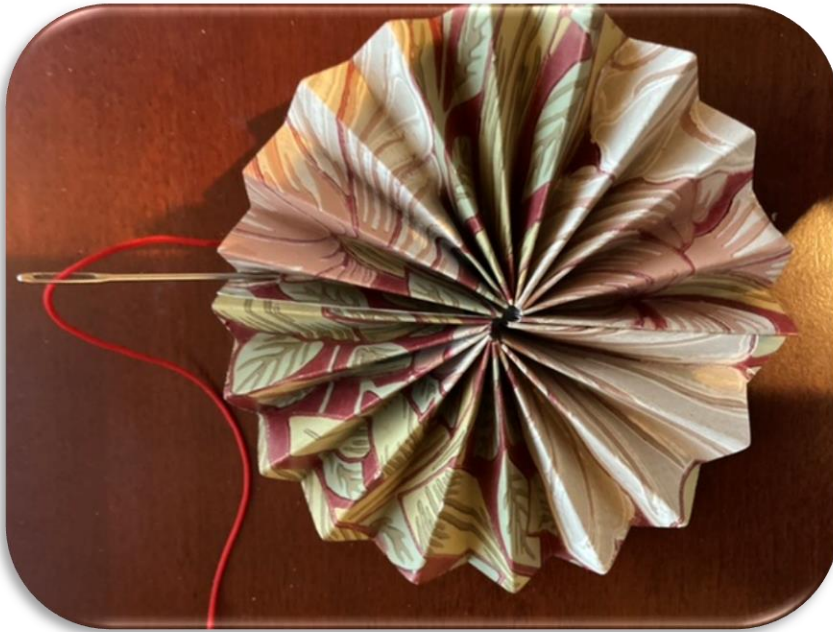

4. Flip it over and glue in the middle to secure the decoration.

5. Cut a 3cm diameter circle of card and glue to the back of the circle.

6. With a needle and approximately 16cm of red wool or thin ribbon, pierce a hole at the top of the decoration and thread through. Tie a knot at the top.

7. Hang up your finished decoration or make several and string them up together like these on the fireplace at Kelmscott House.
